

RGBIC digital dotless RGB strips with COB design for residential and decorative lighting. 256-level gray chip is used to achieve more delicate changing effects as well as keeping a consistent brightness. Double layer FPC keeps a balanced voltage as well as providing superior heat dissipation and flexibility.

D21 RGBIC COB Dotless	
Type	Digital Dotless RGB
Voltage	24VDC
Power	11W / M
Emitting Colour	RGB
LED Quantity	630 LEDs / M
LED Chip	COB 12mm PCB
Dimensions	W 12mm H 1.6mm L 5000mm
Cutting Length	Every 100mm
IP Rating	IP20
Operating Temp	-20° to 40°C
Lumens	500Lm / M
Maximum Run	5M
Certification	cULus
